

TECHNICAL DATA SHEET

RESIN K-1370

Short oil alkyd resin based on glycerol and coconut oil

PRINCIPAL PROPERTIES

- High Gloss
- Excellent Adhesion
- Excellent color retention
- Solubility in aromatic solvent
- Very good hardness and impact
- Non-yellowing

APPLICATIONS

It is used in stoving white enamels and clear it is also used in NC lacquers and roller coating varnishes.

PRODUCT SPECIFICATION

PARAMETER	SPECIFICATIONS
Type of oil	Coconut oil
Oil length	32
Acid value on solid	<25 mg KOH /gm.
Viscosity 50% solid in xylene	200-260 seconds B-4 @30 C
Colour on gardner scale	Max.5.0
Clarity	Clear
Non-volatile content	70 +_2 %
