

TECHNICAL DATA SHEET

RESIN K-1270 L

Short oil alkyd resin based on glycerol and castor oil

PRINCIPAL PROPERTIES

- High Gloss
- Excellent Adhesion
- Very good color retention
- Solubility in aromatic solvent
- Very good hardness and impact

APPLICATIONS

It is used in white and coloured stoving enamels and also other industrial finishes.

PRODUCT SPECIFICATION

PARAMETER	SPECIFICATIONS
Type of oil	Mix fatty acid
Oil length	42
Acid value on solid	<25 mg KOH /gm.
Viscosity 50% solid in xylene	60-80 seconds B-4 @ 30 C
Colour on gardner scale	Max.5.0
Clarity	Clear
Non-volatile content	70 +_2 %
