

## TECHNICAL DATA SHEET

### RESIN K-276

Short oil chain stop air drying alkyd resin based on pentaerithritol and soyabean oil fatty acid.

### PRINCIPAL PROPERTIES

- High gloss
- Fast dry
- Very good adhesion

### APPLICATIONS

It is used economical quality quick drying enamels and primers.

### PRODUCT SPECIFICATION

PARAMETER	SPECIFICATION
Type of oil	Soyabean oil fatty acid
Oil length	40
Acid value on solid	<20 mg of KOH/gm
Colour on gardner scale	8.0Max
Clarity	Clear
Non-volatile content	60+ 2%
Viscosity 50%solid in xylene (ford cup B-4)	120-140 @30°C
Surface dry	20 minutus
Hard dry	12 Hour
